AUTO-MESSAGE

Hey [Name],

I'm glad we are now connected on LinkedIn!

I am a full-stack software developer actively seeking a job in the industry. I switched into software development because I found my old job unfulfilling and I didn't feel it was making an impact to improve my own life or anyone else's. I was stuck in a dead-end job and wasn't learning anything new for over a year. I love software development because it is something I feel can affect a lot of people and there is always something new to learn!

I would love to get to know each of my connections a little more.

What are your interests? What got you into the industry you are currently working in? Do you enjoy your current job and position?

I look forward to connecting with you more!
